

Current opportunity

Finnish forest industry company UPM regularly publishes portfolios of commercial forests to be sold by a tendering process. The properties included in these portfolios are typically each between 500 and 3,500 hectares in size.

Next portfolio will be announced for bidding in March 2015. Find more at <http://www.bonvesta.fi/web/page-homeeng>

Suomen Sijoitusmetsät Ltd has been advising buyers during the previous three biddings. Our client made last year investment worth over 10 million EUR. We secured that our client made secure and profitable purchase. Now we manage their forest to secure the return on investment.
